## Aprendentatge

**ANIMATE** (IntergenerAtioNal community for coMpAny knowledge TransfEr) provides a cross-generation community based service exchange system where companies employing qualified older adults can offer workshops and learning experiences to the younger professionals of other companies and in turn get back the experience that they have provided as working hours or weeks from the workforce available in the community companies.

## ***IRBLLEIDA International Postdoctoral Programme “IRBLLEIDA-IPP”***

The programme will consist of 4 calls for a total of 10 positions for a two year postdoctoral stay. It will be actively and internationally promoted and open to worldwide researchers in an equal opportunity basis. Eligibility for the programme will require geographical mobility and other mobility experiences will be positively evaluated. The application procedure will be simple, clear and applicant friendly. The evaluation will have two stages (previous scientific achievements and research project) and the selection procedure will be based on excellence of the candidates. The Selection Committee will be composed exclusively of external members and will be chaired by an internationally recognized scientist.

Funded by the  
European Union
